PAPAL COINS AND MEDALS

Monnaies et medailles papales

THE BELANGER COLLECTION

These collections contains a great selection of rarities. It is impossible in the scope of this sale to do justice to all of them. This is one time that the bidder can have a marvellous opportunity to enrich his cabinet at comparatively low cost.

Cette collection est composée d'une grande sélection de raretés. Il n'y avait ni temps ni possibilité de tout classifier. Il y a donc une bonne occasion ici pour M. M. les Collectionneurs d'enrichir leur cabinet numismatique aux prix avantageux.

Note N. B. Scudo-Crown-Ecu-Thaler-Dollar. Testa's book on Papal scudi which was published in Rome in 1952 has been quoted. (The book is available for $5) and the catalogue of the famous Butta, Ruchat and other sales held in Rome and Milan by well known experts.

We took several consignments of ITALIAN GOLD COINS which will be auctioned in the Saturday foreign gold session. Collectors of papal coins will find some of the most precious gold rarities listed.

MM. Les Collectionneurs sont avisés que les monnaies italiennes en or seront vendus le samedi et nous vous conseillons de lire bien ces pages y concernant dans la dernière section du catalogue.

THE BELANGER COLLECTION OF AMULETS AND SCALPULAS

The following lots probably contain the finest collection of such specimens ever made by one individual and represent the constant work of a lifetime of seeking. It is to be regretted many cannot be described in detail and illustrated. Almost without exception they are made of brass or bronze (modern ones simetimes in white metal) and are made to be worn around the neck. Almost every Saint is included in the collection. We have divided them as best as we can by periods. The older ones are very rare and are seldom seen.

MODERN PORCELAIN MEDALS AND COINS

Most collectors are familiar with the rather common German porcelain coins of the 1922–23 inflation period. Very few collectors have seen the beautiful medals made by the same Meissen factory where the Saxonian Meissen porcelain is made. These medals are here offered for auction and it is the first time that we are selling these.

CONSIGNMENT ROBERT VINA DEL MAR

FOUR UNPUBLISHED GOLD RARITIES OF ALBANIA

When King Zog left Albania he is supposed to have taken along with him the entire striking of the four unpublished 100 francs pieces 1928 and 1929, dates hitherto unknown. The entire lot was bought by interested parties in Paris and was put into the numismatic market. Collectors seeing these issues all over Europe presumed that these coins were common and later restrikes. The entire 4 coins were issued in a very limited quantity, presumably 500 in total, that is about 125 pieces each. Today few of the European firms have any pieces available and to obtain a complete set is entirely impossible. These coins eventually will be worth $250 ea. at least as price for which they were originally sold was $122.50. We are fortunate of being able to offer these four pieces separately or as a set. All carry the word "Prova".
